PRODUCT DESCRIPTION

Entac 27-LED Work lights represent the perfect choice for convenient repair work. During repair and assembly there are always hard-to-see places when the main light source of the room is just not sufficient as it cannot illuminate the needed areas, let it be indoors or outdoors. That's the right kind of work for the Entac multifunctional work lights. Our 27-LED work lights are also equipped with a hanger and a magnet that help you place your lights where they are needed the most, ensuring proper lighting for the area of your choice. Due to its small size, it is a practical and portable solution. Due to IP44 protection this product is truly durable and can also be used in wet conditions. The product features 27 LEDs with a 1W power output and 120 lumen brightness. It works with 3 AA batteries and its operating time is a maximum of 6 hours.

The Entac Work light category includes numerous other products. Learn more about these on the following [link](#).
